CONNECTING SCIENCE TO PATIENTS

IMMUNO-ONCOLOGY SEMINAR

Preclinical and Translational Immuno-Oncology: How to Fast Track Your Immunotherapy with Predictive *In Vitro* and *In Vivo* Models

When October 24, 2017, Tuesday, 9:00 am

Where IZB Martinsried, Am Klopferspitz 19, 82152
Planegg-Martinsried, Room Kubus 1 and 2

Crown Bioscience will be presenting on their extensive *in vitro*, *ex vivo*, and *in vivo* model collection for immunotherapeutic assessment. Learn more about the integrated translational platforms and experience they can offer to support a wide range of preclinical needs.

Speaker

Ludovic Bourré, PhD - Director of Scientific Engagement at CrownBio

brings over 10 years of research experience in the fields of oncology and immuno-oncology, from both academia and commercial organisations. Prior to joining CrownBio, Ludovic worked at Invectys as head of the pharmacology department, with his experience covering cancer vaccines and antibody immunotherapy from preclinical to early clinical phases.
